

Client Newsletter

January 2018

Compliments of the New Year, and welcome back from myself and the EnviroServ team. I hope you enjoyed relaxing quality time with your nearest and dearest.

Dean Thompson - CEO

As we move forward into 2018, we also reflect on the year that was, and I would like to thank you for your ongoing support. The ANC electoral conference has come and gone, and the country remains positive that the election of Cyril Ramaphosa as incoming ANC leader will see a boost for business confidence.

EnviroServ management and project team with Herman Mashaba and his team

EnviroServ is proud to be one of the private sector players who has heeded the call of the executive mayor of the City of Johannesburg, Herman Mashaba, for volunteers to help clean up the city and beyond, in a monthly drive called A Re Sebetseng, which means "let's work". We hope this will help foster a culture of reduce, reusing and recycling of waste material.

EnviroServ's Commercial Director, Dawie Krügel undersigning A Re Sebetseng pledge

You might notice our new fleet in the coming weeks and months - we are proud to have acquired a number of new trucks, trailers, truck tractors and Super Suckers.

New truck tractor

This is part of our continued focus on customer service and operational efficiencies. We are ready to serve you with our best attention, and wish you a successful year ahead. I look forward to doing business with you.

Regards,
Dean
