## EnviroServ achieves Level 2 B-BBEE rating

As a leading African waste management company, EnviroServ is proud to have achieved an industry-leading Broad-Based Black Economic Empowerment (B-BBEE) Level 2 rating in terms of the revised Codes of Good Practice.

Our new B-BBEE status means that you will benefit from enhanced procurement recognition, as well as our status as a Black Women Owned entity. This achievement signals the successful strides we are making in our company's transformation and empowerment journey as committed to in our transformation charter.

We believe our BEE initiatives in the areas of supply chain management, skills development, employment equity enterprise and supplier development and CSI are truly transformative and changing lives.

In our first rating under the revised codes we achieved a Level 4 status. We set ourselves a goal to be a Level 2 this year and through robustly developed plans and focus we have achieved this. While we're proud of our achievements, we are cognisant that there is still much that needs to be done to achieve full true transformation and remain committed to continuing the process.
